TCM Group announces intention to launch an Initial Public Offering on Nasdaq Copenhagen

TCM Group, Scandinavia's third largest kitchen manufacturer and owner of the Svane Køkkenet brand, today announced its intention to launch an Initial Public Offering ("IPO") and to list its shares on Nasdaq Copenhagen.

Chairman of the board of directors, Sanna Suvanto-Harsaae, said:

"The contemplated IPO will be a milestone for TCM Group. It will provide a strong platform for continued growth in Denmark and in the rest of Scandinavia, by enhancing the visibility of the company, further strengthen our brands and improve the ability to attract and retain key employees. We are excited about inviting investors to participate in this important next phase for TCM Group."

CEO, Ole Lund Andersen, said:

"TCM Group has a very strong market position based on our focus on innovation and kitchens of high quality at affordable prices designed and produced in Denmark. We have grown both organically and by acquisitions since 2010, while at the same time improving profitability significantly, and we have clear plans for continued growth and further improvement of the profitability."

The contemplated IPO is expected to consist of a sale of existing shares by the Company's existing majority shareholder. The Company will not receive any proceeds from the Offering. The current majority shareholder of TCM Group is Innovator International S.à r.l. (the "Selling Shareholder") owned by IK Small Cap I Fund and certain co-investors being limited partner entities. IK Small Cap I Fund is advised by European private equity firm IK Investment Partners Ltd. In addition, members of the board of directors, the executive management and certain other employees own shares in the Company.

TCM Group in brief

TCM Group is Scandinavia's third largest manufacturer of kitchens and furniture for bathrooms and storage in terms of revenue, while the vast majority of its business is concentrated in Denmark. The product offering includes cabinets, table tops, sliding doors, and other related products such as accessories and white goods.

Manufacturing is mainly carried out in-house and all production is located in Denmark, with well-invested factories in Tvis and adjacent Aulum close to Holstebro in Jutland. Manufacturing is mainly based on a 'made-to-order' business model, where the majority of the parts and products enter production when a

confirmed order is received. A key benefit from the 'made-to-order' business model is the ability to retain relatively low levels of net working capital.

TCM Group pursues a multi-brand strategy, under which the main brand is Svane Køkkenet and other brands are Tvis Køkkener, Nettoline, kitchn and private label. Combined, the brands are intended to cater for the entire price spectrum. In addition to price segments, TCM Group services both B2C and B2B (including social housing, property developers, professional house builders) customer groups, with revenues roughly split equally between the two segments.

Innovation plays a pivotal part for TCM Group and its brand positioning. A new Svane kitchen line is launched every year, representing a mixture of novelty through design and functionality.

Svane and Tvis kitchens are sold through a network of 60 single-brand stores in Denmark and Norway, which all operate under franchise or dealer agreements (except from one store that is owned by the TCM Group). TCM Group has a close dialogue with store owners and dealers to ensure optimal customer experience in the store network. In addition to branded stores, TCM Group sells kitchens through independent retail specialty stores in Denmark and Norway under the Nettoline brand and in Sweden under the kitchn brand. Also, TCM Group sells private label kitchens through a total of more than 150 DIY stores in Denmark and independent kitchen stores in Norway. Finally, through kitchn.dk, TCM Group has an online sales channel; a minor but high-growth segment of the kitchen market, especially in the low-price segment of the market.

To ensure continued future growth in revenue and profitability, TCM Group has identified five overall strategic focus areas:

- Increase store sales through focus on operational excellence and brand building.
- Increase organic growth through expanding geographical footprint, in particular in Norway and Sweden.
- Facilitate and expand the online sales channel.
- Acquisitions, which strengthen or expand TCM Group's market presence and/or contribute potential synergies.
- Continued optimization of the production, including increased automation.
